ABOUT US

Processing and export of fine quality rice, since 2002.

2002	1.55 ACRES	ABOUT 60	ISO · HACCP
Established	Mill site at Port Qasim	Skilled and unskilled staff	NQA registered, UKAS accredited

Quality Rice Mill began in 2002 in Karachi, Pakistan's largest business hub. Our core business is rice processing and export, and we are now an established and respected name among international buyers and in the local market.

The mill has wide, well-organised warehouses, an in-house weighbridge of a world-renowned brand and a sophisticated processing plant. An experienced technical team selects the raw rice and processes it to the highest level of customer satisfaction.

MISSION

To be a trusted name in the rice sector through consumer satisfaction, providing the real taste and hygienic quality of rice at affordable prices.

VISION

To achieve national and international dominance in the rice industrial sector by keeping to fair and ethical business standards.

OUR PLANT

A well-equipped, state-of-the-art rice processing plant.

- COMBI CLEANER
- THICKNESS GRADER
- DE-STONER
- METAL DETECTOR
- PADDY SEPARATOR
- PNEUMATIC POLISHER
- SILKY POLISHER
- LENGTH GRADER
- DUAL COLOUR SORTERS

FACTORY BUILDING

Built on 1.55 acres to the highest building standards, with a large warehouse for raw rice, a warehouse for ready-to-ship stock, a broad plant area and a tiled-floor packing area that keeps the final rice pure, clean and hygienic.

PACKAGING
PP, jute, cotton and non-woven bags, PET jars and shakers. See our Packaging Catalogue.

QUALITY & CERTIFICATIONS

Controlled from purchase to packing.

QUALITY CONTROL & SUPPLY CHAIN

We follow our own Standard Operating Procedure for buying raw rice, applied by experienced rice analysers who select the best possible quality. At purchase the rice is analysed on every aspect, and the processed head rice is tested again before shipping. We keep adequate stock levels so the supply chain stays smooth and dependable.

PACKING

We pack bulk and consumer sizes in cotton, jute, polypropylene and non-woven bags and box board cartons, from 1 kg to 40 kg. The packing team works to a zero-tolerance policy on cleanliness and hygiene, and the department is monitored by CCTV cameras.

3. **POLISH** — Pneumatic and silky polishers
4. **GRADE** — Thickness and length graders
5. **SORT** — Colour sorters and metal detector

RICE COOKING GUIDE

Soak, water and time, by variety.

A starting point for the pot. Ratios are rice to water by volume. Adjust to your pot, your heat and your taste.

VARIETY	SOAK	WATER	COOK	BEST FOR
IRRI-6 · WHITE	15 MIN	1 : 2	15–18 MIN	Bulk and catering
PK-386 · WHITE	15–20 MIN	1 : 1.75	15–18 MIN	Everyday table rice
1121 BASMATI · RAW	20–30 MIN	1 : 1.5	12–15 MIN	Biryani and pulao
1121 BASMATI · STEAM	30 MIN	1 : 1.75	15–18 MIN	Biryani and pulao
IRRI-9 · WHITE	15 MIN	1 : 2	15–18 MIN	Everyday cooking
PARBOILED · ANY	30 MIN	1 : 2.25	20–25 MIN	Catering, large pots

FIVE STEPS

1 RINSE
Wash 2 to 3 times until the water runs almost clear.

2 SOAK
As per the table. Drain before cooking.

3 BOIL
Bring the measured water to a rolling boil, then add the rice and a pinch of salt.

4 SIMMER
Lid on, lowest heat. Do not stir or lift the lid.

5 REST
Turn off the heat and rest 5 minutes, then fluff with a fork.

GOOD TO KNOW

Older, aged Basmati takes less water and cooks fluffier. Add a teaspoon of oil or ghee for separate grains. For pulao and biryani, par-boil to about 70 percent, drain, then steam on low heat. Broken grades cook faster and suit kheer, porridge and khichdi.
